

United States of America
Department of Transportation — Federal Aviation Administration
Supplemental Type Certificate

Number SE35WE

This certificate, issued to Garrett Turbine Engine Company,
A Division of the Garrett Corporation
402 S. 36th St.
Phoenix, Arizona 85034

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 13 of the Civil Air Regulations.

Original Product — Type Certificate Number: E2WE

Make: Garrett (AiResearch)

Model: TPE331-47 Turboprop Engine, S/N 61402,
S/N 61403, S/N 61406, S/N 61407, S/N 61409

Description of Type Design Change: Modification of the fuel control linkage to permit 75% r.p.m. for low ground idle. Modification Number 869344-1. Change C.

Limitations and Conditions: This approval should not be extended to other specific engines of this model on which other previously approved modifications are incorporated unless it is determined that the interrelationship between this change and any of those other previously approved modifications will introduce no adverse effect upon the airworthiness of that engine.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: February 13, 1967

Date issued: February 9, 1981

Date of issuance: April 20, 1967

Date amended:

By direction of the Administrator
